which lender to call. But that knowledge lives in their head — not in a system. When they leave, it walks out the door.
1 in 4 Deals have a structural problem the manager can't see. FICO looks prime — but the exposure ratio, LTV cross-penalty, or DTI kills it.

<h3>What is that costing your store?</h3>
Drag the sliders. See the number. Then call us.

Built From the Desk
<h2>18 years. 40,000+ deals.
Built by F&I.</h2>
DealOptima wasn't built in a tech lab by developers who've never sat at an F&I desk. It was built by someone who has — for almost two decades.
Salesman. Internet Director. Finance Manager. General Sales Manager. Every seat at the dealership except one — and that's who we're selling to. Every lender call. Every counter. Every decline that should have been an approval if the deal was structured 10 minutes earlier.
The scoring algorithm isn't theoretical. It's built from 18 years of knowing what underwriters actually look at — not what the rate sheet says, but what gets deals bought.

<h4>Christopher Hall</h4>
Founder & Developer
<ul class="fb">
<li>18+ years in automotive — every desk from sales to GSM</li>
<li>40,000+ deals submitted to real underwriters</li>
<li>Salesman to Finance Manager to General Sales Manager</li>
<li>Built the scoring engine from real underwriter behavior</li>
<li>Solo-built the entire platform — product, code, and lender configs</li>
</ul>
"I've sat across from the customer, called the lender, gotten countered, restructured at 8pm, and watched deals die because the structure was wrong from the start. DealOptima is the tool I spent 18 years wishing I had."
